

Looking for techniques and strategies to better communicate with individuals living with dementia?

JOIN THIS EDUCATIONAL SUPPORT GROUP TODAY!

Alzheimer's disease can impact a person's ability to communicate. This group will focus on understanding behaviors as a form of communication, discussing strategies for effective and flexible communication, and assisting care partners in getting the support they need.

**AFA's free, telephone-based support group will meet for 4 weeks,
beginning June 8, 2017:**

Thursdays, 7:00-8:00 p.m. (EST)

To register:

**Contact AFA's national toll-free helpline at 866-232-8484 and speak with one of
our licensed social workers.**

**AFA's National Toll-Free Helpline: 866-232-8484
